

# Datasheet FUJITSU Image Scanner fi-800R

### Compact and versatile scanner for the front office

The fi-800R scans A4 portrait documents at comfortable speeds of 40 ppm/80 ipm (200/300 dpi) and makes customer onboard-ing easy with its compact size and versatile scanning abilities.

### Ultra compact footprint for limited spaces

The fi-800R is the perfect scanner when space is limited. Designed to fit in narrow office spaces, it comes equipped with Dual Path Mechanism, enabling scanning of a wider variety of documents. Satisfy all your scanning needs, from plastic cards to booklets, with a single device.

### Versatile scanning functionalities

U-turn Scan using the ADF makes a small footprint even smaller. The stacker extends to provide neatly stacked output documents and returns to its original position once scanning has completed, so that users can easily start scanning their next batch.

## Clever ID scanning for a great customer onboarding process

Using Return Scan, scan passports and ID up to 5 mm thick without using a carrier sheet. Simple one sheet scanning also no longer requires the hassle of opening the feeder. Clever operation and fast scanning speeds of a mere 3.5 seconds reduce customer wait times and help provide great customer experiences.

### Stress-free operation with accurate paper feeding performance

Serve customers faster with the fi-800R's robust feeding functionalities. With Automatic Skew Correction functionality, documents are straightened one sheet at a time for precise paper feeding. Active Separation also adjusts pressure to ensure each sheet is separated and captured without any misfeeds. Confidently scan mixed batches and make customer onboarding more efficient.

### Advanced software for maximized efficiency

Empower reception workflows and use information more efficiently with our enhanced PaperStream IP scanner driver and integrated PaperStream Capture software. With the MRZ Recognition function, the Machine Readable Zone on passports are recognized and extracted as metadata for fast client retrieval. Users no longer need to organize documents or check if documents with photo IDs are scanned in face up, since the Front Side Detection function detects photos on ID cards and passports to automatically set pages with photos as the front side. With a few simple setting configurations, Automatic Profile Selection also allows documents to undergo image processing appropriate to each document format. All these functionalities work together to offer a wider variety of batch scanning features and make employees more efficient.

#### **Technical Information**

Scanner Type		ADF (Automatic Document Feeder) / Manual Feed, Duples	
Scanning Speed <sup>*1</sup> (A4 Portrait) (Color <sup>*2</sup> /Grayscale <sup>*2</sup> /Monochrome <sup>*3</sup> )		ADF	Simplex: 40 ppm (200/300 dpi) Duplex: 80 ipm (200/300 dpi)
		Manual Feed	3.5 seconds (200/300 dpi)
Image Sensor Type		CIS x 2 (front x 1, back x 1)	
Light Source		RGB LED (front x 1, back x 1)	
Optical Resolution		600 dpi	
Output Resolution*4 (Color / Grayscale / Monochrome)		50 to 600 dpi (adjustable by 1 dpi increments) 1,200 dpi (driver) <sup>*5</sup>

\*1 Actual scanning speeds are affected by data transmission and software processing times. \*2 Indicated speeds are from using JPEG compression. \*3 Indicated speeds are from using TIFF CCITT Group 4 compression. \*4 When scanning in high resolutions (500 dpi or above), scanning may be rejected depending on scanning mode, document size, memory size, and application program. Selectable maximum density may vary depending on the length of the scanned document. \*5 Limitations may apply to the size of documents that can be scanned, depending on system environment, when scanning at high resolution (soc 600 dpi). \*6 Long page scanning is only available when using the ADF. Supports documents with lengths of up to 5,588 mm (220 in.) when resolutions are set to 200 dpi or less. For higher resolutions, supported document lengths vary. \*7 Maximum capacity depends on paper weight and may vary. \*8 Numbers are calculated using scanning speeds and typical hours of scanner use, and are not meant to guarantee daily volume or unit durability. \*9 With the ADF paper chute closed. \*10 Functions equivalent to those offered by PaperStream IP may not be available with the WIA Driver. \*11 Software can be downloaded from the website designated in the Setup DVD-ROM.
